

NEPTAPE® Data Sheet

Marker Identification Tapes NEPTAPE® M18LS

Construction: 0.00092" (23μ) printed polyester film
0.00092" (23μ) polyester film

Description: 1/8" (3.2 mm) wide identification tape printed with legend and sequential footage markings. Print is laminated between two film layers which protect it from exposure to water, abrasion, lubricating oils, and filling compounds.

*ASTM Test Methods are listed for reference only. Actual testing performed according to modified equipment and conditions. Specific test methods available upon request.

The data presented here is intended for product selection purposes only. Typical properties represent data characteristics of the product, but do not necessarily reflect minimum values during normal testing. Specification data can be provided upon request.
